

OSAKA UNIVERSITY SPECIAL SEMINAR

DECEMBER 17, 2019
10AM - 2PM

KEYNOTE SPEAKER :

BANGMOD CAMPUS
9TH FLOOR, PRESIDENT BUILDINGS AD 907 MEETING ROOM
(PRAPA PRACHAK SUPANIMID) 10.00 - 11.00 am.

Topic : Metabolic engineering of lactic acid bacteria for production of optically pure lactic acid

Dr. Kenji OKANO

Assistant Professor

Department of Biotechnology,
Graduate School of Engineering

Topic : Antibiotic discovery by activation of cryptic secondary metabolism in actinomycetes

Dr. Shigeru KITANI

Associate Professor

International Center for Biotechnology

PROGRAM

<http://gg.gg/oskm>

BANGKHUNTHIEN CAMPUS 1ST FLOOR, PDTI BUILDING
SATTABONGKOT MEETING ROOM 13.00 - 14.00 pm.

Topic : Design of stable cell production system for regenerative therapy

Dr. Ikki HORIGUCHI

Assistant Professor

Department of Biotechnology,
Graduate School of Engineering

Topic : Protein engineering and applications of enzymes from extremophiles

Dr. Yuichi KOGA

Associate Professor

Department of Material and Life Science,
Graduate School of Engineering
