The Annual Report is published to record the activity of the International Center for Biotechnology (ICBiotech) and issued once in each fiscal year. It contains scientific articles, progress reports, letters, and announcement from the Center. This volume includes publications by the former participants in UNESCO courses. The editor welcomes the submission of appropriate articles from all persons who are concerned with the activity of the Center. All the contributions, however, will be reviewed by editors before their acceptance. The scientific paper herein should be treated as personal communications and not treated as original publications. The Annual Report is distributed upon request to the International Center for Biotechnology, Osaka University, 2-1 Yamadaoka, Suita, Osaka 565-0871, Japan (e-mail: info_icbio@icb.osaka-u.ac.jp).

ACTIVITIES OF ICBiotech

ACTIVITIES OF INTERNATIONAL CENTER FOR BIOTECHNOLOGY FOR FY2014

The International Center for Biotechnology (ICBiotech) was founded in April 1995 as an independent institute in Osaka University with a mission to pursue academic advancement and collaborative research in biotechnology. ICBiotech has its origin from the “International Center of Cooperative Research Center in Microbial Engineering Japan (ICME)” which was established in the Faculty of Engineering, Osaka University in April 1978, through renaming to “International Center of Cooperative Research in Biotechnology (ICBiotech)” in April 1985 with the recognition of the wide acceptance and success of ICME’s activities and achievements.

ICBiotech is dedicated to promote international cooperation among Asian countries in the aspects of research and educational advancement in the field of Biotechnology by propelling academic interactions in Asian countries, and is committed to industrial biotechnology studies by means of microbial engineering and related sciences, focusing on the sustainable utilization of abundant natural resources in Southeast Asian countries.

ICBiotech serves as the seat of education and research in Asia, with the support of the Ministry of Education, Culture, Sports, Science and Technology (Monbu-kagaku-sho, MEXT), the Japan Society for the Promotion of Science (JSPS), the Japan Science and Technology Agency (JST), the Japan Student Service Organization (JASSO), and the auspices of the United Nations Educational, Scientific and Cultural Organization (UNESCO), with the cooperation of Department of Biotechnology, Graduate School of Engineering, Osaka University, and researchers from prestigious universities nationwide and abroad.

In 2002 Mahidol University-Osaka University Collaborative Research Center for Bio-science and Biotechnology: MU-OU:CRC was set up at Faculty of Science, Mahidol University as a collaborative research center to accomplish multidisciplinary research in the field of Bioscience and Biotechnology.

The activities of the ICBiotech include:

1. Research and Education

The main area of research is industrial biotechnology rooted in microbial engineering, whilst centering on the sustainable use of agricultural and forest resources in bioresource-rich countries such as those in Southeast Asia. Research is underway in the field of cell engineering with the objectives of analyzing the cellular functions of bacteria, fungi and plants, and developing and using functions of these cells for management and rational use of biological resources that exist on our planet. ICBiotech covers three areas of Biotechnology:

- 1) Discovery of new functions from biological resources.
- 2) Bio-conversion and process engineering of biological resources.
- 3) Conservation of biological resources.

For under graduate and post graduate courses, ICBiotech is involved in the education activities of Department of Biotechnology, Graduate School of Engineering as collaborating laboratories and currently covers several fields of biotechnology in education and research: Molecular Microbiology laboratory chaired by Prof. Takuya Nihira and Applied Microbiology laboratory chaired by Prof. Kazuhito Fujiyama.

2. Participating in FrontierLab@OsakaU ‘Scientific Empowerment Program for International Students’ which was created for international students to conduct thematic studies and achieve results under the guidance of supervisors while acquiring skills necessary for continuing research in one of Osaka University’s internationally renowned science and technology laboratories for a period of up to 12 months.
3. Acting as collaborating laboratories with Department of Biotechnology, Graduate School of Engineering, Osaka University for ‘International Program of Frontier Biotechnology’, a five-year program for master’s and doctor’s degrees. The aim of this program is to expose graduate students (privately financed as well as the Japanese Government Scholarship students) to state-of-the-art research skills and in-depth knowledge of advanced biology, chemistry and physics to harness the potential of biotechnology.
4. Having been administrating and implementing the “UNESCO Biotechnology School in Asia” (2012-) at Department of Biotechnology, Graduate School of Engineering, Osaka University, taking over the long-termed “International Post-Graduate University Course in Microbiology” (1972-2003) and Postgraduate Inter-University Course in Biotechnology (2004-2007) with total of 459 alumni spreading all over Asia.
5. Undertaking a JSPS Asian CORE Program entitled as ‘Next-Generation Bioproduction Platform Leveraging Subtropical Microbial Bioresources’. This project aims to develop next-generation bioproduction platform by interaction between excellent researchers from Japan, Thailand, Vietnam, Laos and Cambodia, together with fostering young researchers from those countries for future in the field of industrial biotechnology. The program is based on the result from preceding MEXT/JST project carried out in FY2006-2008, which took over the termination in 2004 of the JSPS multilateral program in the field of biotechnology.
6. Involving as a research group at Japan side for a JICA-JST Project in Thailand: Thailand-Japan Collaboration for the Research and Development of Therapeutic Products against Infectious Diseases. The Research Institute for Microbial Diseases (RIMD), Osaka University, acts as the Japanese host coordinator for the project. The Project is implemented under the “Science and Technology Research Partnership for Sustainable Development (SATREPS)” promoted by Japan International Cooperation Agency (JICA) and JST in collaboration.
7. Serving as the secretariat for the UNESCO Regional Network for Microbiology and Biotechnology in Southeast Asia in accordance with a proposed memorandum resulting from a Consortium Meeting of the Project “Tropical Bio-Resources and Green Chemistry Strategy” (Osaka 2003).
8. Working as a member of the global network “Microbiological Resource Centers” (MIRCENs) operated by UNEP, UNESCO and ICRO; and as an original member of the “Regional Network for Microbiology in Southeast Asia” operated under the auspices of UNESCO through the Fund-In-Trust of the Japanese Government (J-FIT).

9. Promoting international cooperative researches in biotechnology with the Southeast Asian countries related to Biotechnology, under the support of Monbu-kagaku-sho Grant-in-Aids for International Scientific Research. In addition, ICBiotech cooperates in developing international organization and conducting academic seminars related to biotechnology.
10. Publishing Annual Reports of ICBiotech periodically.

I . COOPERATIVE RESEARCH STATION (CRS) IN SOUTHEAST ASIA

The ICBiotech, Osaka University launched out the Cooperative Research Station (CRS) in Southeast Asia at Chalermprakiat Building, Faculty of Science, Mahidol University in 2002 through the generous support by Mahidol University. The CRS' space and equipments are made available for Southeast Asian and Japanese researchers to undertake cooperative onsite researches on the development of the abundant natural biological and genetic resources and their sustainable utilization in Southeast Asian countries through JSPS core university program (ended in 2005), JST Special Coordination Funds for Promoting Science and Technology (2006-2009) and JSPS Asian CORE Program (2009-2014). The CRS also functioned as a lecturing and research station of the UNESCO International Post-graduate Inter-University program, which Osaka University operated in coordination with Thai universities. The CRS is considering support to the alumni of Osaka University and provision of university information for recruitment of students for study in Osaka University.

Mahidol University (MU) and Osaka University (OU) together established the Mahidol University-Osaka University Collaborative Research Center (MU-OU:CRC) for Bioscience and Biotechnology at Faculty of Science, Mahidol University in 2002, to strengthen the research cooperation in these fields which are amongst the most active fields of study and research in both universities.

Currently, MU-OU:CRC has co-ordinated a research projects under the jointly support of National Research Council of Thailand (NRCT), National Center for Genetic Engineering and Biotechnology (BIOTEC) and The Japan Society for the Promotion of Science (JSPS). Researchers from Mahidol University, Chulalongkorn University, Kasetsart University, King Mongkut's University of Technology Thonburi and BIOTEC participate in this project.

CRS is conducting researches on

1. Strain improvement of *Bacillus thuringiensis*.
2. Screening of actinomycetes for bioactive compound.
3. The soil metagenome for screening of potential polysaccharide-degrading enzymes.
4. Cell culture system for screening of bioactive compounds from Streptomycetes and environmental fungi.
5. Quorum sensing interference: Novel biocontrol strategies for pathogenic bacteria.

II. UNESCO COURSES

“UNESCO International Post-Graduate University Course in Microbiology” (1973-2003) plus the “UNESCO Postgraduate Inter-University Course in Biotechnology” (2004-2007) was one of the two long-term training courses held in Japan launched in response to the recommendations concluded at a UNESCO General Conference Meeting. After the operation of 33 batches for developing human resources in Asia, total 459 young researchers from all over Asian countries are now playing active and leading roles in current biotechnology research and education in the region to contribute to the development of their own country, and consequently to Asian countries, and the establishment of the closer and stronger network in the region.

UNESCO Biotechnology School in Asia (JFIT Project)

The “UNESCO Biotechnology School in Asia” was launched in October 2012. This program is an activity of the “UNESCO Extra-budgetary Program for Human Resources and Research Network in Sciences and Technology” supported by the Japanese Fund-In-Trust (JFIT). The course is a program of the scientific training for young Asian university-graduates in the field of Biotechnology and related areas resulting in achieving master degree, and the participants are expected to make significant contributions to an educational or scientific institution in the coming years in their home countries. It aims also to strengthen the network activities among the biotechnology scientists in the region.

Opening Ceremony of the UNESCO Biotechnology School in Asia 2013 Cohort

August 1, 2014 at Icho Kaikan, Osaka University

Opening	Prof. Takuya Nihira	Director, ICBiotech
Welcome address	Prof. Toshio Hirano	President, Osaka University
Address	Prof. Ainun Na'im	Secretary-General, Ministry of Education and Culture, Indonesia
Address	Prof. William G. Padolina	President, National Academy of Science and Technology, the Philippines
Address	Mr. Bambang Soegianto	Acting Consul General, Indonesian Consulate-General, Indonesia
Address	Mr. Vichit Chitvimarn	Consul General, Royal Thai Consulate General
Address	Mr. Jerome John Castro	Consul, Philippine Consulate General
Address	2013 cohort participants	11 participants
Closing	Prof. Kazuhito Fujiyama	ICBiotech
Photo session		
Welcome lunch		

[List of 2nd cohort students] (Aug 2013 – July 2015)

Nationality	Name	Allocated University	Assigned Supervisor
Cambodia	Sreyneang Nhim	KMUTT, Thailand	
Cambodia	Ratny Khiev	MU, Thailand	Dr. Siripong Thitamadee
Cambodia	Chan Davy Seng	ITB, Indonesia	
Cambodia	Sochanwattey Meas	KMUTT, Thailand	
Cambodia	Ratha An	MU, Thailand	Assoc. Prof. Sittiwat Lertsiri
Laos	Chanhvilayphon Vixaysomboun	UGM, Indonesia	
Vietnam	Thi Ngoc My Nguyen	CU, Thailand	Dr. Tanapat Palaga
Thailand	Nutthanit Thummrongtsiri	Osaka U, Japan	Dr. Nihira, ICBiotech
Indonesia	Nur Akbar Arofatullah	Osaka U, Japan	Dr. Fujiyama, ICBiotech
Philippines	Johnry Sumague Maloles	Osaka U, Japan	Dr. Fujiyama, ICBiotech
Philippines	Cristine Marie B. Brown	Osaka U, Japan	Dr. Nihira, ICBiotech

Schedule

July 28	Orientation, Final presentation of 2012 participants
July 29	Master thesis presentation in English Course
July 30	Advanced training with HPLC, Seminar by Shimadzu
July 31	Factory tour at Shimadzu (Kyoto) and experience of Japanese culture in Kyoto
August 1	<ul style="list-style-type: none">• Opening ceremony, Welcome lunch• Seminar by Japanese companies: Asahi Breweries, Ezaki Glico, Fuji Oil, and Saraya• Presentation of research topics by 2013 participants• Light meals and round table conference
August 4	Lectures: Bioresources (Prof. Kaneko) and Biodiversity (Dr. Kawasaki)
August 5	Lab tour at Dept. Biotechnol., Experience of Japanese culture
August 6	Lecture: Technology management (Prof. Methé)
August 7	Lecture: Free trade and outsourcing –the rise of India and China- (Prof. Nomura)
August 8	Experience of Japanese culture
	Presentation of team task, certificate award, and brief meeting

III. WORKSHOP

International Workshop on Plant-Made-Pharmaceuticals — 25 Years of Progress and Challenges September 16th - 18th, 2014 Icho Kaikan 3F (Conference Hall), Osaka University

2014 marks the 25th anniversary of the first plant-made-pharmaceutical (PMP). In recognition of this important milestone in biotechnology, ICBiotech at Osaka University, together with the University of California-Davis and Ministry of Economy, Trade and Industry (METI), Tokyo, hosted a workshop to discuss the commercial production of PMPs from the perspective of design method/structural systems analysis (DMSSA). The workshop is appropriate for graduate students, postdoctoral fellows, university faculty, government and industrial scientists interested in the scientific and commercial aspects of PMP production.

Organizing Committee: Kazuhito Fujiyama (Chairman)

Takuya Nihira, Raymond L. Rodriguez, and Atsuhiko Shinmyo

Program

<September 16 (Tue), 2014> at Icho Kaikan (Hankyu Sanwa Hall)

9:00- 9:30 Registration

9:30- 9:45 Greetings and introductory remarks:

Kazuhito Fujiyama (Organizing Committee Chairman, ICBiotech, Osaka U)

Michihiro Tamura (Director, Bio-business Promotion Office, METI)

9:45-10:00 Workshop orientation: **Raymond Rodriguez** (Dept. Mol. & Cell. Biol., UC Davis)

10:00-10:10 Introduction of Keynote Speaker: **Raymond Rodriguez**

10:10-11:00 Keynote presentation 1: **Yuri Gleba** (Icon Genetics and Nomad Bioscience, Germany) Plant biotechnology: The future is in transient expression processes

11:00-11:15 Questions and discussion

11:15-11:30 BioBreak

11:30-12:00 Research seminar 1: **Noriko Tabayashi** (Plant Biotechnology Center, Hokusan) Development of transgenic strawberry which is used as raw materials for veterinary drug formation

12:00-12:15 Questions and discussion

12:15-13:15 Lunch Break
13:15-14:00 Technical session 1: **Karen A. McDonald** (Dept. Chem. Eng. & Material Sci., UC Davis)
Techno-economic analysis, regulatory pathway and PMP case studies
14:00-14:15 Questions and discussion
14:15-15:15 Technical session 2: **Ko Kato** (NAIST) Development of new transformation vector for high expression of transgene in plant cells
Noriho Fukuzawa (AIST) Cucumber mosaic virus vector
15:15-15:30 Questions and discussion
15:30-15:45 BioBreak
15:45-16:05 Research seminar 2: **Hisakazu Hasegawa** (Hokko Chemical Ind., Central Res. Lab.)
Production of Alzheimer's disease vaccine by transgenic soybean
16:05-16:15 Question and discussion
16:15-16:35 Research seminar 3: **Jun Mutara** (Suntory Foundation for Life Sciences) Metabolic engineering of lignan biosynthesis pathways for the production of transgenic plant-based foods and supplements
16:35-16:45 Questions and discussion
16:45-17:05 Research seminar 4: **Kazutoshi Sawada** (Idemitsu Kosan, Advanced Technol. Res. Lab.)
Production of candidate edible vaccines against porcine disease in plants
17:05-17:15 Questions and discussion
17:30-19:00 Reception

<September 17 (Wed), 2014>

9:00- 9:10 Introduction of Keynote Speaker: **Atsuhiko Shinmyo** (NAIST)
9:10-10:00 Keynote presentation 2: **Julian K-C. Ma** (St. George's Hospital Medical School, University of London) Plant antibodies: The progress and challenges of PMPs
10:00-10:15 Questions and discussion
10:15-10:30 BioBreak
10:30-11:00 Research seminar 5: **Yasushi Tasaka** (Bioproduction Res. Inst., AIST) High yield production of transgenic *N. benthamiana* expressing antibody by using hydroponics in closed plant factory
11:00-11:15 Questions and discussion
11:15-11:45 Research seminar 6: **Raymond Rodriguez** (Dept. Mol. & Cell. Biol., UC Davis) Expression of recombinant human butyrylcholinesterase (rhBuChE) in *Nicotiana benthamiana* and its postproduction *in vitro* glycan modification
11:45-12:00 Questions and discussion
12:00-13:15 Lunch Break
13:15-14:15 Technical session 3: Scale-up for commercial production of PMP proteins
Karen A. McDonald (Dept. Chem. Eng. & Materials Sci., UC Davis) Progress and challenges in scaling-up plant-based production of PMPs
Somen Nandi (Dept. Mol. & Cell. Biol., UC Davis) Challenges and successes in scaling and purifying commercial PMPs
14:15-14:30 Questions and discussion
14:30-15:30 Technical session 4:
Kazuhito Fujiyama (ICBiotech, Osaka U) Glycan characterization and redecoration of recombinant proteins in *Nicotiana* plant cell
Xi Chen (Dept. Chem., UC Davis) *In vitro*, multistage enzymatic redecoration and sialylation of hBuChE and other glycoproteins
Shuuichi Nakaya (Shimadzu Corporation) Glycoconjugate analysis using mass spectrometry: Glycosylation analysis of the serine protease from plant using MALDI-QIT-TOF MS
15:30-15:45 Questions and discussion
15:45-16:00 BioBreak
16:00-16:30 Research seminar 7: **Akiho Yokota** (NAIST) Production of human thioredoxin in lettuce

16:30-16:45 Questions and discussion

17:00-17:30 Special instrument demonstration: **Dr. Nakagawa** (Hitachi) Artificial Golgi for glycan modification

-19:00 Reception and Dinner

<September 18 (Thu), 2014> at Suntory Memorial Hall

9:30-10:30 Wrap-up and Next steps panel discussion (Moderator: Karen McDonald)

10:30-11:00 Open for comments and discussion

**The Second Workshop on Collaboration
between Osaka University and Japanese Companies**
January 19, 2015

4th and 5th floor, International Center for Biotechnology, Osaka University

Sponsorship; International Center for Biotechnology, Osaka University

Co-sponsored; International Research Initiative for Frontier of Industrial Biotechnology, Osaka University

The Second Workshop on Collaboration between Osaka University and Japanese companies was held. Representatives of industries engaged in the biotechnology industry were introduced to the international students enrolled at Osaka University for the purpose of attaining international human resource development. A total of fifteen enthusiastic companies attended the meeting. Companies, faculty members and students introduced themselves and their activities to one another. Students were able to know about the Japanese companies and how to apply their scholarly works in the industrial biotechnology setting. Adding to the great success of this meeting are the lively discussions and exchange meetings which have resulted in a deepened understanding of each other.

Workshop Program

13:30-14:00 Brief introduction about the project Prof. Nihira (Director of ICBioTech)

14:00-15:00 Keynote Lecture: Bringing innovations to the Market-Global Perspective

Lekh Juneja Ph.D. (Executive Vice President, Rohto Pharmaceutical Co., Ltd.)

15:00-16:15 Introduction of companies: Company profiles and their experiences for human resource development

1) Suntory Spirits: A theory and practice of the whisky manufacturing

2) Nissin Foods Holdings: Specific initiatives of our company to hire and take good care of foreign employees

3) Hitachi Zosen: Energy from Waste/JCM project in Vietnam

16:15-17:00 Presentation by international students

1) UNESCO Biotechnology School in Asia (M2, Thai)

2) Frontier Biotechnology (D2, Chinese)

3) Frontier Biotechnology (D2, German)

4) Frontier Biotechnology (D2, Chinese)

5) Frontier Biotechnology (D1, Indonesian)

17:00-17:15 Brief introduction of participating companies

17:15-19:30 Exchange meeting

IV. JASSO STUDENT EXCHANGE SUPPORT PROGRAM (SSSV) (Scholarship for Short-Term Visit/ Short-Term Stay Program)

This is a field study program jointly operated with GLOCOL (Global Collaboration Center), Osaka University and several universities in Thailand. In 2014, 16 first year master's degree students of Osaka University visited 4 universities in Thailand between August 5 and September 8, and 17 postgraduate students from Thailand visited Osaka University between August and December, which enhanced mutual interactions.

V. JAPAN-ASIA YOUTH EXCHANGE PROGRAM IN SCIENCE (SAKURA Exchange Program in Science)

Purpose of the Program: Asia is undergoing a period of dramatic progress. Promoting science and technology is a key engine to materialize a bright future of Asia and it is vitally important to enhance the exchange of Japanese and Asian youths who will play a crucial role in the field of science and technology. Based on this concept, “Japan-Asia Youth Exchange Program in Science” (SAKURA Exchange Program in Science) is the program for enhancing exchanges between Asia and Japan of the youths who will play a crucial role in the future field of science and technology through the close collaboration of industry-academia-government by facilitating short-term visits of competent Asian youths to Japan. This program aims at raising the interest of Asian youths toward the leading Japanese science and technologies at Japanese universities, research institutions and private companies.

VIII. COMMITTEE MEETINGS

Steering Committee Meetings of ICBiotech were convened as follows:

- April 18, 2014: Discussion on inviting a Visiting Research Scholar: Dr. Ingorn Kimkong, Thailand (June 14, 2014 – July 14, 2014).
- June 13, 2014: Discussion on inviting a Visiting Research Scholar and assigning title of professor: Dr. Savitree Limtong, Thailand (October 1, 2014 – November 2, 2014).
- July 22, 2014: Discussion on inviting a Visiting Research Scholar and assigning title of professor:
Mr. Junji Tayama, Japan (August 1, 2014 – July 31, 2015).
Discussion on inviting a Visiting Research Scholar:
Mr. Yohanes Novi Kurniawan, Indonesia (October 1, 2014 – September 30, 2015),
Ms. Ratama Daduang, Thailand (October 1, 2014 – September 30, 2015), and
Ms. Dian Anggraini Suroto, Indonesia (October 1, 2014 – September 30, 2015).
- September 25, 2014: Discussion on inviting a Visiting Research Scholar:
Dr. Nobuaki Suzuki, Japan (December 1, 2014 – November 30, 2015) and
Dr. Hiroyuki Kajiura, Japan (December 1, 2014 – November 30, 2015).
- November 25, 2014: Discussion on inviting an Adjunct Research Scholar:
Dr. Yoshinori Sumimura, Japan (December 1, 2014 – March 31, 2015).
- March 11, 2015:
Report on:
UNESCO Biotechnology School in Asia and its opening ceremony
JST Sakura Exchange Program in Science
International Workshop on Plant-Made-Pharmaceuticals -25 Years of Progress and Challenges
2nd Workshop on on Collaboration between Osaka University and Japanese Companies
JASSO Short-stay and Short-visit program 2014
Three Visiting Research Scholars staying at ICBiotech during the FY2014
Adjunct professor for the FY2015
Evaluation committee meeting
Discussion on:
Selection of a new director for the FY2015-2016
Selection of members of the steering committee
Selection of members of the evaluation committee
Conferring the title on visiting professors from abroad for FY2015
Conferring the title on visiting professors assigned from Japanese universities for FY2015
Inviting a visiting research scholar
